

EXP NO16: WEB APPLICATION

The screenshot shows the Microsoft Azure App Services dashboard. The top navigation bar includes the 'App Services - Microsoft Azure' tab and a search bar. The main header displays 'App Services' with a star icon and a close button. Below the header, there are action buttons: '+ Create', 'Manage Deleted Apps', 'Manage view', 'Refresh', 'Export to CSV', 'Open query', 'Assign tags', 'Start', 'Restart', 'Stop', and 'Delete'. A filter bar shows 'Subscription equals all', 'Resource group equals all', and 'Location equals all'. The table below the filter bar shows 'Showing 0 to 0 of 0 records.' and a table with columns: Name, Status, Location, Pricing Tier, App Service Plan, Subscription, and App Type. The table is empty. A large circular icon with a globe is centered on the page, with the text 'No app services to display' below it. A description follows: 'Create, build, deploy, and manage powerful web, mobile, and API apps for employees or customers using a single back-end. Build standards-based web apps and APIs using .NET, Java, Node.js, PHP, and Python.' A link 'Learn more about App Service' is provided. A 'Give feedback' link is at the bottom right.

The screenshot shows the 'Create Web App' wizard in the Microsoft Azure portal. A warning dialog box is displayed in the center, stating 'portal.azure.com says Your unsaved edits will be discarded.' with 'OK' and 'Cancel' buttons. The wizard steps are: 'Select a subscription to manage deployed resources and costs. Use resource groups like folders to organize and manage all your resources.' The 'Subscription' dropdown is set to 'Azure for Students' and the 'Resource Group' dropdown is set to 'sravani'. The 'Instance Details' section shows 'Need a database? Try the new Web + Database experience.' The 'Name' field is 'simula' and the 'Publish' section has 'Static Web App' selected. A 'Create' button is visible. The bottom navigation bar shows 'Review + create', '< Previous', and 'Next: Deployment >'.
